Projects

El-Meet: A Modern and Scalable Video Conferencing App

- Developed a scalable video conferencing app using Next.js, TypeScript, and Mediasoup with a Selective Forwarding Unit (SFU) architecture, reducing latency by 15% for 50+ concurrent users.
- Designed a responsive UI with Tailwind CSS and integrated real-time chat using Socket.io and Redis, improving user engagement by 30%.
- Deployed on DigitalOcean with Docker and GitHub Actions, ensuring 99% uptime.
- Tech Stack: Next.js, TypeScript, Mediasoup, WebRTC, Socket.io, Node.js, Express, Tailwind CSS, Redis, Prisma, PostgreSQL, Docker, GitHub Actions, DigitalOcean.

Zapier: Automation Platform

- Built an automation tool connecting Gmail, Solana, and webhooks using Next.js, TypeScript, and Kafka, processing 100+ automated workflows daily.
- Implemented real-time event handling with Prisma and PostgreSQL, achieving 95% reliability in multi-step automations.
- Tech Stack: TurboRepo, Next.js, TypeScript, Kafka, Tailwind CSS, Node.js, Express, PostgreSQL.

Education

Sagar Institute of Research And Technology

Bhopal, India

B.Tech in Computer Science and Information Technology

2020-2024

- **Relevant Coursework :** Web Development, Database Systems, Cloud Computing

Certification

Full Stack Developer Certificate — 100xDevs Cohort-3

Key Achievements

Design Showcase Competition —

Secured 3rd place in Design Showcase Competition, showcasing web application design and creativity.
